One post of Junior Research Fellow (JRF, @ Rs. 25000/- + HRA) is available in the SERB (Science and Engineering Research Board) Research Project entitled "Molecular Genetic Correlates of DNA Damage and Repair and of Circadian Rhythm Dysfunction in Humans from Non-Ionizing Radiation Exposure" for a period of three years (up to 14-6-2018). Candidates having 55% marks in M.Sc. in Human Genetics and having qualified/not qualified UGC/CSIR-NET/GATE (Life Sciences) may submit their applications along with complete biodata, copies of certificates and other relevant documents to the undersigned latest by 30-11-2015. Candidates with working experience in the field of Human Genetics in similar/related area of the project will be given preference.

Candidates are also desired to send a soft copy of their complete biodata mentioning the area of research interests at e-mail id: gandhi07@hotmail.com latest by 30-11-2015. Eligible candidates would be informed about the interview date through e-mail/telephone. No TA/DA will be paid to the candidates for appearing in the interview. Candidates, who applied earlier, need not to apply again.

(Dr. Gursatej Gandhi)
Principal Investigator (SERB-DST Project)
